10288	TES Dependency Toolkit (TESDTK) v2.1	Utilities	MMH	95-1867	Aaron White a.k.a. Argent	2009-04-06	The Elder Scrolls Dependency Tool Kit was originally designed as a way to prevent the GMST errors that occur when using the Tribunal and/or Bloodmoon versions of the Construction Set without having all the official master files (.esm) loaded. If you have a mod that does not require Tribunal or Bl...
