| 5295 | Vampire Robe | Cheats | ММН | 18-11383 | Alkrodion | 2007-07-16 | Adds a robe which covers your body in shade making you hard to see. The result is that you arent hit by light and not seen as a vampire. In other words you aren't effected by sun damage and people dont see you as a vampire. If you want them to see you as a vampire you must remove the robe |
